Attachment to Interview Summary

1. Applicant called regarding the requirement for a new declaration in section 1 of the detailed portion of the office action mailed 4/19/2007. Applicant's counsel inquired if all of the inventor's signatures were needed, as the alternation was only to the address of one inventor. Applicant's counsel stated that there was possible difficulty in contacting one of the inventors. The examiner suggested filing an Application Data Sheet that has the correct addresses of all of the inventors, as 37 CFR 1.63 (c)(1) does not require this information to be in the declaration, if an ADS has been filed that contains the address information (MPEP 602). Upon filing of the ADS, the examiner suggested applicant request that the requirement for a new declaration be withdrawn, as the existing declaration would have all of the information, in an unaltered form, that is required for a declaration in combination with an ADS.

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to William P. Watkins III whose telephone number is 571-272-1503. The examiner works an increased flex time schedule, but can normally be reached Monday through Friday, 11:30 A.M. through 8:00 P.M. Eastern Time. The examiner returns all calls within one business day unless an extended absence is noted on his voice mail greeting.

Art Unit: 1772

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Harold Pyon can be reached on 571-272-1498. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
